

WELCOME TO FOUR SEASONS RESORT MALDIVES AT **KUDA HURAA**

... a colourful garden 'village' bathed by crystal waters just 25 minutes from the airport.

Engage in exhilarating activities from surfing to shark safaris, dolphin-watching to diving. Sail by dhoni to The Island Spa – the only spa in the Maldives on its own private isle. Retreat to beach accommodations surrounded by tropical blooms or water bungalows with mesmerising ocean views. As the setting sun paints the endless sky, the Sunset Lounge and Turtle Beach epitomise the Resort's postcard-perfect setting and laid-back vibe.

A village setting that draws on the traditions of generations of craftsmen

The architectural design centres on giving the entire Resort the feeling of a Maldivian village. Traditionally styled accommodations flank the island, either side of a wide garden promenade filled with bright, fragrant flowers. Architectural detailing – including decorative lattice panels, curved roof shapes and carved roof features – is inspired by Maldivian forms and draws on the traditions of generations of craftsmen. A generous use of timber and thatch complements the natural surroundings, with subtly raised floors maximising the sea views throughout the island. All en-suite bathrooms integrate an indoor bath and shower area with a Maldivian open-air shower set in the exotic confines of its own walled garden.

THE ISLAND SPA SEA SANCTUARY

The Island Spa is the only spa in the Maldives located on its own private isle. It is accessed by tiny dhoni (traditional boat), just a minute's sail across Kuda Huraa's lagoon. The new all-natural "Healing Waters" treatment menu draws on the healing benefits of the ocean, creating a sea sanctuary for guests of all ages.

Lush gardens lead to seven over-water treatment pavilions – each designed for couples – featuring massage tables with sea-viewing portals, separate bathing area and private garden courtyard with open-air shower.

The 'Healing Waters' spa menu offers an innovative three-tier concept that helps guests restore their primal connection to the sea and reconnect with the essence of their true self.

Pioneering marine-based OSEA therapies and rituals draw on the healing properties of the ocean – from sea oxygen and sea salt to wild-harvested seaweed and nutrient-rich sea algae – via three 'depths' of treatment experience to refresh, rebalance and rejuvenate:

Deep: incredibly effective treatments designed to have deep therapeutic impact in the minimum amount of time.

Deeper: exploratory experiences that draw on the essence of the ocean to restore a sense of harmony.

Deepest: immersive journeys to support physical, mental and emotional wellbeing at the deepest level.

Treatments range from unique massages, therapies, wraps and bathing, to rituals, yoga and meditation. Highlights include: 'Tides of Time: Return to Youthfulness' facial; 'Surfer: Return to Balance' massage; 'Kuda Huraa Healing Waters: Return to Tranquility' therapy; and 'The Big Blue: Return to Wellbeing' ritual. Guests can also embark on transformative 5-day spa journeys: Marine Detox, Siren Song and Find Your Flow.

"Secrets of the Sea" Night Spa Ritual

The magical 150-minute 'Secrets of the Sea' Night Spa ritual focuses on the vagus nerve – the body's memory-maker and relaxation centre – for a soul-soothing experience beneath a blanket of stars.

Kuda Spa

The Kuda ('Little') Spa menu offers a progressive approach to children as young as six (when accompanied by an adult). Six natural, island-inspired treatments include interactive sessions that enable children to blend their own essential oils, 'activate' lava shells and enjoy precious family spa time.

Yoga

The Island Spa includes a rooftop Yoga Pavilion, where the Resort's Yogi guides beginners and experienced followers alike through morning asanas and evening pranayama (breathing exercises) and meditation, as well as awareness talks and private classes.

ENVIRONMENTAL AND COMMUNITY PROJECTS

Marine Discovery Centre (MDC) – an interactive research and education centre that introduces guests and local school children alike to the role we can each play in conserving the local and global marine ecosystem.

The Centre features audio-visual presentations on specific areas of conservation close to the Kuda Huraa team's heart, including turtles, coral reefs, sharks and dolphins. In addition, it shows daily 3D movie presentations on the underwater world.

www.marinesavers.com - features the history, progress and plans of all of Four Seasons Resorts Maldives marine conservation projects. Interactive components enable guests to keep track of the Resorts' satellite-tagged turtles, follow the progress of coral frames they have sponsored and transplanted, and keep up to date with news of island events from the discovery of turtle nests to outreach projects with local schools.

The Maldivian Sea Turtle Conservation Programme

– Comprising a series of projects across Four Seasons Resorts Maldives, our turtle programme works to protect, monitor, relocate, release, rear and rehabilitate Maldivian sea turtles. Kuda Huraa's MDC has two turtle ponds, where green turtle hatchlings from protected nests are reared for up to 18 months to improve their chance of survival in the wild.

Water-bottling Plant – Kuda Huraa's water bottling plant produces still and sparkling water for its restaurants and guestrooms, saving around 30,400 plastic bottles per month.

Bodu Huraa Community Initiatives – Kuda Huraa has initiated and supports several projects on the neighbouring island of Bodu Huraa. These include: a recycling centre; the provision of a desalination plant and sewage system; the support of the community health centre; purchasing contracts with fishermen and farmers, and the financing and leasing back of private boats and private homes from local owners for staff use. Kuda Huraa also has strong relationships with local painters and woodworkers from Bodu Huraa who visit the Resort weekly to display their art and crafts for guests to buy.

Mosquito Control – Kuda Huraa has been working with Trudy Rilling-Collins, a.k.a. 'The Mosquito Lady', since 2011 to provide environmentally responsible solutions to unwanted monsoon-loving guests. Thanks to Trudy's highly targeted techniques, Four Seasons has been able to completely eliminate the use of fogging across both of its Maldivian resorts, and is now funding the extension of the project to Bodu Huraa, Kuda Huraa's adjacent community island, and across 13 island communities in the Baa Atoll UNESCO Biosphere.

Reefscapers (www.marinesavers.com) – Kuda Huraa has been working with environmental consultancy, Seamarc Pvt. Ltd, to improve coral cover around the Resort since 2001. Known as 'Reefscapers', the regeneration initiative today runs concurrently at Kuda Huraa and Landaa Giraavaru, and has grown into one of the most successful projects of its kind in the world. Sponsored by the Resorts and their guests, it involves attaching coral fragments onto specially designed coral frames to boost existing reef habitats and generate new ones. Frames are produced on Fulhadoo – a nearby island of 250 inhabitants – where the only previous source of employment was fishing.
