Double Room Roomhopper

Your travel period is no longer available? No problem - become a roomhopper with ROBINSON!

For flexible guests, so-called roomhoppers, we provide rooms in a period that is regularly already fully booked. So you can still travel to your favourite club at your favourite time. As a further added value you have the possibility to get to know several room categories and even to get a "room upgrade", but you only have to pay for the cheapest category. Depending on availability and length of stay, you may change rooms up to four times in the club. The exact room categories and number of removals will be communicated to you at the club at check-in.

When changing rooms, the informal check-out is available in the morning until 11 a.m. and the new room is available again by 3 p.m. at the latest.

The luggage service of ROBINSON takes care of your luggage. The Roomhoppers simply leave their packed suitcases or bags in the previous room and find them in the new room again. Valuables can be deposited at the reception.
